Use Case

Approved Motor Trade Dealers upload their car info using web Forms to the site

→

Admin reviews those web-forms with (Edit, Delete etc.) functionality and places **"Tick" in a box** as "Authorization" next to Entry

(Displayed) in Car Sales Catalog

Once approved by Admin/Moderator All related car info **uploaded by Approved Motor Trade Dealers is rendered to site's registered users** for viewing and buying decisions

→

Registered Users can browse Catalog and pick car(s) of interest **to add it (them)/ subtract from Shopping Cart**

Checkout Form is due to be filled out by private and/or Motor Trade Dealer Buyer as a **requirement to process Purchasing** Order

→

Once Form is correctly filled out and "Submit" button is clicked, **Confirmation Page with Order number** is displayed as Processed Order

---
